category to choose from that includes health, humor, fiction, drama, romance, business and many more. You can also choose from the featured eBooks, check the Top10 list, latest arrivals or latest audio books. You simply need to register and activate your free account, browse through the categories or search for eBooks in the search bar, select the TXT or PDF as preferred format and enjoy your free read.

2008 Audi A3 Iat Sensor

P0113: IAT Sensor – High Input Problem. The IAT sensor is responsible for measuring the air temperature and density to achieve the optimal air/fuel mixture for any condition. P0113 is specifically thrown when the A3's computer sees a voltage signal of 4.91 volts for over half a second at the Intake Air Temp Sensor. If there are irregularities in the voltage, it will not throw P0113, it's only for excess voltage.

Audi IAT Sensor | CarParts.com

P0113 AUDI Description The Intake Air Temperature (IAT) sensor is built into mass air flow sensor or in some vehicles mounted to the air filter duct housing. The sensor detects intake air temperature and transmits a signal to the Engine Control Module .The temperature sensing unit uses a thermistor which is sensitive to the change in temperature. Electrical resistance of the thermistor decreases in response to the temperature rise.

The intake air temperature sensor or IAT sensor has the core function of monitoring the temperature of the air that is entering the engine of your vehicle. This information is very useful for the engine control unit or ECU for many functions and calculations, such as calculating the air density for effective ignition timing and fuel efficiency.

Symptoms of a Bad Intake Air Temperature Sensor [IAT Sensor]

Intake air temperature (IAT) sensor: Wiring, poor connection, IAT sensor: 524 - Knock sensor (KS) 1: Wiring, KS, ECM: 525 - Heated oxygen sensor (H02S) 1 - implausible signal: Wiring, H025, heating inoperative, fuel level low: 526 - Stop lamp switch: Wiring, stop lamp switch: 527 - Intake air temperature (IAT) sensor: Wiring, poor ...

P2008 AUDI Intake Flap For Airflow Control Electrical ...

There might be two IAT sensors on this engine. The MAF may sense incoming air in addition to the IAT sensor that is after the intercooler, sensing the temperature of the air going into the engine. I suspect that the latter is your problem. You should find it located between the intake manifold and the air outlet of the intercooler.
