3116 Cat Engine Problems

Any Cat 3116, 3126 or C7 are good engines. When you have hundreds of thousands engines on market you always will find hundreds of people who complain about. Most of problems are due to misuse or poor maintenance. Cat do not like to be idle. This is why not good for bucket trucks driven by PTO.

CAT 3116 Engine?? Has anyone had much experience or have ...

I am looking at a 94 GMC C8500 tandem axle truck 58,000 GVWR, 14,000 front/40,000 rears with leafs all around. It has a 14' dump with 42" sides (13 yd) and a 3116 Cat (not sure if 250 or 275 hp) mated to a 13 spd. Only has 78,000 miles on it!!!! :eek: I have never had a Cat diesel in any of...

3116 Cat diesel... good/bad?? | The largest community for ...

My concerned that I heard Cat made junk engine back in 90's but couldn't find info on I6 expect it was V8 diesel. How many miles can I pull out this 3116? How they do on mileage? 5-10? It had 4.33 gear ratio in Eaton rear axle and tires is 22.5" It had 6 speed manual.

3116 Caterpillar Diesel Engine Reliable? | The largest ...

95 TOPKICK 3116 CAT with electronic injection. Truck stalled in middle of the road and would not start. After finding out the fuel routing, there is a check val...

3116 CAT fuel system - YouTube

Worst Caterpillar Engine: 3116 Why We Hate It: It's not that we hate the CAT 3116 it's that we hate the fact that it's hard to work on. It is extremely hard to time the fuel system and like the VW on the automotive side, working on the CAT 3116 requires special tooling you can only buy from Caterpillar.

10 Best and Worst Diesel Engines in History - Capital ...

Id take a dt466 or a 8.3 cummins any day to a cat 3116 or 3126 1996 Gmc k2500 4x4 6.5 turbo diesel, with mods Blew the head gasket, put all new heads, valves, injectors gaskets etc on the truck only to get it together and find out it had no oil pressure, and sounded horrible (pry a spun bearing).

cat 3116 | The Diesel Garage

They were not Cats best engine. The 3116 had lots of early problems, soft blocks, head, injector problems. One still running with 650 hours will probably last awhile longer. Make sure you get a complete Cat history on the motors; and get a Cat survey. No shade tree mechanics on the cheap.

Tell me about reliability issues with the 3116 marine engines?

Got a 1997 GMC Top Kick with a 3116 Cat engine. Got a idle problem and a check engine light, to put it in to simpler terms it runs like it's got a fouled spark plug...I know it don't have any but tha ... read more

I have a 3116 Cat HUEI with a no start problem. It turns ...

1993 topkick with 3116 cat is hard to start every morning, replaced intake heater,check valves,filters, shut off solenoid, installed electrical fuel pump (mech still operational) engine does not lose fuel back to tank, most mornings have to spray with quick start. Heavy smoke when she first starts then she runs fine all day.

cat 3116 hard start | Heavy Equipment Forums

Not exactly the same engine, but yours were derived from the 3116, sort of. I did experience an unwanted engine shut down, only once during 17 years of ownership overall. So, don't take this as a suggestion that your problem is likely to be the same, also because I'm not sure if the 3126 and the 3116 share the same component.

Cat 3126 problem | YBW Forum

The early model CAT 3116 engine had some problems including lower grade engineered cylinder heads and injector problems. There are special tools Caterpillar made to deal with the issues surrounding the injectors which make repairs at the dealership rather costly.

Caterpillar 3116 Remanufactured Engine For Sale - Capital ...

This week I had an unexpected, and expensive, experience will loss of oil. I have a 98 FL70 with the CAT 3126 engine, with 312,000 miles on the vehicle. I was driving at a fairly normal rate of 65 MPG at 1700 RPM and 35# oil pressure. Suddenly my oil warning light came on, and the oil...

i have a 3126E in my CAT service truck. i am a field mechanic for cat. 3116 are ok, they are usually gutless but run a long time, and thier is a lot of moving parts to their fuel system - they have a mechanical fuel rack under the valve cover. when they start to get high hours / miles it usually needs adjusted or (most likley) replaced. this takes A LOT of special tooling! not a job for a small shop, the tooling alone costs 3-4k. the 3126's are usually ok.
