### **Create a visual style guide for your brand**

A graphic design style guide puts in writing all the various decisions you've made about how things should look both in print and online. While many of the same decisions will be reflected in a Cascading Style Sheet (CSS), they are not the same document. A CSS is written in code for your website, producing a consistent look across your web pages; a graphic design style guide is written for humans to read, especially those who aren't familiar with code or even technical design terms!
