For over 25 years STD Development has been setting the standard for the world's strongest aftermarket cases, high performance heads and related engine components for the Harley-Davidson ® and American V-Twin market.

### stddevelopment.com

The Evolution Big Twin saw a fifteen-year run in Harley-Davidson's Dyna, Softail, FXR, and Touring frames, although a limited number of Evolutions were used in the 2000 model year CVO FXR4, and 1999 FXR2 and FXR3 models. While the main case was only slightly modified from the previous Shovelhead engine, the top end was significantly improved.

### Engine Cases - Ultima Products

Harley-Davidson VIN Number Explained ... From 1930 to 1962 the VIN number was the engine number and was only located on the left case. The VIN was between 8 and 10 digits with the first 2 digits being the production year, the next 2 - 4 letters being the model designation and the last 4 digits being the production number ...

### Harley-Davidson VIN Numbers Explained

Look on left side of the engine case for the engine number. Harley engines that were made before or in the 1960s have the model year of the engine as the first two numbers of the engine number, which acts as a VIN. Look for a four-digit production code in the last four digits of the VIN.
